

(mikro)Ucho Pro

How to use (mikro)Ucho Pro

1. Plug (mikro)Ucho Pro into the XLR inputs on your device.
2. Turn on the phantom power. On some devices, phantom power needs to be turned on via button or menu option. Consult the manual if you're not sure how to do it.
3. Set your gain to the appropriate level and enjoy!

How to mount (mikro) Uši (Pro)
