2025/12/07 10:48 1/1 Sound Devices MixPre knob

Sound Devices MixPre knob

Specs: 12mm diamater, 14mm height, 8.5mm internal diameter
The knob is friction-fitted on the original knob, no need to modify your device.
The current design *does not* work with 10T and 10M. Download version 1.1 (*.stl) • Get one from us

Extending the knob increases risk of damaging the original encoder when dropped, since the knob is protruding over the edge of the protective corners. Use at your own discretion.

Old versions

Download version 1.0 (*.stl) (picture of this old version)
