

Equipment for field recording

[Independent comparison of recorders](#) by Avisoft

Recommended field recorders

We recommend borrowing your first recorder and skipping the cheapest range. It is better to find out if field recording is for you and save for a more professional and reliable device.

Less than 250€

- second hand Sony (PCM-M10, PCM-D50)
- second hand Tascam recorders (DR-100)
- second hand Olympus recorders (LS-11, LS-12)
- Roland R-07
- Sony PCM-A10

Don't expect great sound with the on-board mics with these devices. We recommend using external **LOM** microphones with all of the above for best performance.
